

For companies like ours in healthcare and biotech, the connection to the Museum is a natural fit, given our employees' strong interest in biology and related fields. Also, the Museum boosts the cultural and educational resource profile of the region, helping companies attract and retain a well-educated workforce.

Robert Proulx, Vice President, Marketing, Nanogen, Inc.
Board Member, San Diego Natural History Museum

The San Diego Natural History Museum is a world-class museum that unveils jaw-dropping exhibitions like the *Dead Sea Scrolls* and *A Day in Pompeii*. As a proud associate of a world-class bank like Bank of America, I am not surprised that our institutions are inextricably connected.

Joye D. Blount, Senior Vice President, Market Development
Manager, U.S. Trust, Bank of America Private
Wealth Management

The San Diego Natural History Museum is the premier collections-based environmental education and natural-history-research resource in our region. We provide programs that are timely, user-friendly, and relevant to the real-life needs of the diverse populations of the San Diego-Baja California region today and tomorrow.

Michael W. Hager, Ph.D., President and CEO

Corporate Giving

Your support will...

Bring children from Title I schools to the Museum to enjoy an unforgettable day of learning through the **Museum Access Fund**.

Send taxidermied animals, fossils, and insect specimens for K-12 teachers to use as a learning resource in their classrooms through the **Nature to You Loan Library**.

Bring the Museum to the classroom through **Museum on Wheels**. Museum docents will bring cased and touchable specimens to classrooms to teach one-hour programs that emphasize the natural history of the San Diego region and correlate with California Science Content Standards.

Bring enriching natural science experiences to after-school programs through **After-School Science Adventures**. These sessions will inspire children to take an active interest in science, nature and the environment. Topics range from chemistry and energy to native plants and watersheds.

History:

Established in 1874, the San Diego Natural History Museum is one of California's oldest and most respected cultural and science institutions. The Museum and its members have played a pivotal role in the establishment of the San Diego Zoo, Scripps Institution of Oceanography, Torrey Pines State Park, and Anza Borrego State Park.

Mission:

To interpret the natural world through research, education, and exhibits; to promote understanding of the evolution and diversity of southern California and the peninsula of Baja California; and to inspire in all people respect for the environment.

Join us today!

Please join our roster of corporate contributors and support the San Diego Natural History Museum to develop exciting new exhibitions and programs that inspire in all a respect for nature and the environment, and a passion for lifelong learning and discovery.
